

# H-SERIES

Thermal Vision Cameras

Typical Night Vision

H-Series Thermal Advantage

## Experience The H-Series Advantage

- See suspects in total darkness
- See through smoke, dust, and light fog
- See through camouflage & foliage in any lighting conditions
- See farther than with other low-light night vision goggles and cameras

FLIR's H-Series handheld thermal imaging cameras let law enforcement officers see clearly in total darkness, providing an undeniable tactical advantage. Using the same technology as airborne law enforcement units, H-Series gives officers the information they need to make quick decisions, enhancing mission effectiveness, maximizing operational capabilities, and improving officer safety.

Using a 320 × 240 thermal imaging core, H-Series provides four times the image clarity and detail of earlier systems, allowing officers to see more of their surroundings than any other night vision technology in the world. FLIR's advanced image-processing algorithms produce, crisp, clear thermal video day and night, in good weather and bad. *Best of all, H-Series is the first personal thermal imaging camera affordable enough to give every officer on the job the unsurpassed tactical advantages of full-resolution thermal imaging night vision.*

## LEA is now a Master Distributor of FLIR H-Series Thermal Imaging Cameras Get New Thermal Technology with Lower Pricing, starting at: \$4,995<sup>00</sup>

### 19mm Patrol Model HS-324 (viewer only)

The H-Series Patrol camera package contains all necessary features for covert, all weather, 24/7 thermal surveillance. Choose either the standard 24° lens or the long-range 7° version, depending on your mission requirements. An optional 2× optical extender is available for the 24° lens version. In addition to the H-Series thermal camera, the Patrol camera package includes:

- 4 rechargeable batteries: Provides more than 4 hours of camera operation.
- AC power adapter: Fully charges the batteries in under two hours.
- Vehicle power adapter/charger: For field charging and battery management.
- Command model with still frame and full video storage available.
